

Dear Sir/Madame,

I find my life much quieter without a telemarketer calling me, interrupting my schedule, or just wasting moments of my precious time by coming into my home via telephone.

I need my phone to keep contact and for emergencies, I do not need my phone as another way for 'strangers' to invade and attempt to invade their way into my home and my life.

Please continue to allow NJ to keep the Do Not Call as strict and in place.

Thank you,
